

LSC2 Select

Selectable CCT & Output LED Linear Strip

Product Description

The new LSC2 Select LED Linear Strip adds on to our tried-and-true linear strip with selectable CCT and light output options. This versatile fixture is easy to surface mount on both ceilings and walls and can accommodate continuous runs. The LSC2 features a semi-circular, milky-white lens that offers a more polished aesthetic while eliminating hotspots, and is an economical, energy-efficient lighting alternative to single lamp fluorescent strips and some wraparound fixtures. For even greater energy savings, an optional microwave occupancy sensor is also available. The LSC2 delivers optimal performance and long life in a slim design that's ideal for general ambient lighting in retail, warehouse, residential utility, and light commercial or industrial applications.

Construction

- Durable 20 gauge steel construction
- Smooth formed sides for safe handling
- Similar form factor to single lamp fluorescent strip
- Lens/Array module for easier installation and ingress protection

Optical System

- Semi-circular, diffuser eliminates hotspots and pixelation
- Push button lens retention method securely holds diffuser in ceiling or wall mount
- CCT selectable at 3000K, 4000K, 5000K, 5700, or 6500K
- 80 CRI for good color definition in public places

Electrical

- Input voltage of 120-277VAC
- Dim-to-off dimming via 0-10VDC controls
- Sensor-Ready feature with 12V accessory output behind lens.
- Through wiring capable for continuous runs
- CCT and Wattage selector switches accessible on junction box
- Emergency backup available
- Power factor > 0.9
- THD < 10%
- Luminaire surge protection level: designed to withstand up to 2.5kV ring wave per ANSI C82.77-5-2017 requirements for Indoor Hard-wired and Indoor Portable Luminaires
- Operating temperature rating of -4°F to 122°F (-20°C to 50°C)

Controls

- Snap-in Microwave motion sensor available
- Sensor installs behind lens for seamless appearance

Mounting and installation

- Easy surface mount installation on ceilings or walls
- Quick release buttons for light chamber removal
- Safety-strap retained light chamber allows single person installation
- Multiple knockouts provided for wiring from back, sides or ends
- Features provided for surface, cable, or hook and chain mounting
- Cover plates provided for 4/O box surface installation
- For installations where power surge may be possible, NICOR recommends installing additional surge protection at the fixture or electrical distribution panel

Listings

- cULus 1598 Listed for damp locations
- DLC 5.1 Standard listed for ambient linear applications
- DLC 5.1 Premium listed for stairway applications
- RoHS Compliant
- Meets FCC Part 15, Subpart B, Class A standards for conducted and radiated emissions
- TM-21 Reported L70(9k) life >50,000 hours
- LM-79, LM-80 testing performed in accordance with IESNA standards

Warranty

- 5-year limited system warranty standard
- Warranty does not cover product failure due to an overvoltage event (power surge)

Dimensions

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.
