

CDG

4" and 6" Modular LED Downlight

Product Description

Introducing the CDG LED Commercial Downlight System, a versatile lighting solution that combines modular design features with Selectable wattage/color temperature and wireless control technology. The galvanized steel frame features field-swappable mounting collars for both 4" and 6" trim reflectors available in multiple finishes. For retrofit applications, ditch the frame entirely and mount the trim directly via pre-installed retention clips. The remote junction box/driver is equipped with a hinged door for through-wiring and optional clips for effortless frame attachment. Standard field-adjustable optics produce a range of 36° to 60°, while the optional narrow optic spans 22° to 36° for a more focused light distribution. A wall wash lens can be added to either optic for refined directional lighting. The CDG operates at 120-277V with 0-10V dimming and a 12V accessory wire for Bluetooth control via the NICOR NLC app. Add 4W or 8W emergency backup for added safety and security. NICOR's CDG System sets a new standard in commercial lighting, defining versatility, convenience, and innovation.

Construction

- Galvanized steel mounting frame with interchangeable frame collars
- Galvanized steel junction box with hinged door and locking tabs
- Clip on driver can be mounted facing either direction
- One combination 1/2"-3/4" and four 1/2" knockouts for through wiring
- Mounting brackets provide 2" vertical adjustment

Optical System

- Field adjustable optic from 36°-60° standard
- Narrow optic of 22°-36° available for field installation
- Clip on, rotatable wall wash lens accessory available
- Reflectors provide cutoff angle of 55° (6") and 50° (4")
- 90CRI standard

Finish

- Reflector finishes of:
 - Specular Smooth (6" only)
 - Specular Prismatic (4" only)
 - Haze
 - White
- Each reflector features a white flange

Electrical

- 120-277VAC, 60Hz Input voltage
- 5 CCT and 3 Wattage Selectable options; selector switches located on junction box
- 5CCT Select: 2700K-3000K-3500K-4000K-5000K
- 3 Wattage Select: 38W/3000lm-25W/2200lm-12W/1100lm
- Junction box capacity: 6 (3 in, 3 out) No.12 AWG conductors, rated for 90°C
- Full-range dimming from 0 - 10VDC
- 12VDC output wire for powering controls hardware
- 4W or 8W emergency packs available on frame models
- Ambient temperature rating of -4°F-113°F (-20°C-45°C)

Controls

- NLC (Network Lighting Controls) compatible
- Bluetooth Low Energy (BLE) mesh network providing Luminaire Level Lighting Control
- Configurable with the NICOR NLC app available on iOS and Android devices
- Provides full dimming control with occupancy and daylight harvesting functions

Mounting and Installation

- Field interchangeable mounting frame collars included for 4" and 6" trim options
- Mounting brackets for adjustable arms (included) or butterfly brackets (accessory)
- Adjustable hanger bars accommodate 16"-24" joist spacing
- Trim/Light engine mount with torsion springs
- Retrofit model (no frame) can be used with existing commercial frames or frameless installations

Listings

- cETLus 1598 for wet locations
- CA Title 24 / JA8 compliant
- RoHS compliant
- Meets FCC Part 15, Subpart B, Class B standards for conducted and radiated emissions
- TM-21 Reported L70(9k) life >50,000 hours
- LM-79, LM-80 testing performed in accordance with IESNA standards

Warranty

- 5-year limited system warranty standard
- Warranty does not cover product failure due to an overvoltage event (power surge)
- For installations where power surge may be possible, NICOR recommends installing additional surge protection at the fixture or electrical distribution panel

Replacement Frame and Driver	CDG138S-FRM-DRV

Recommended Dimmers*

Lutron NTSTV
Lutron DVSTV
Cooper SF10P
Legrand RH4FBL3PW

*Not a complete list.

Check compatibility before installation.

NLC Controls

The CDG can be configured in zone control or LLLC configurations by attaching the NLCSPCW1WH Wireless Low-Voltage PIR/Daylight sensor with the NLCSPCMOUNT1 Recessed Ceiling Mount.

See www.nicorlighting.com/network-lighting-controls for more information and NLC Component Data Sheets

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.
