OUC5

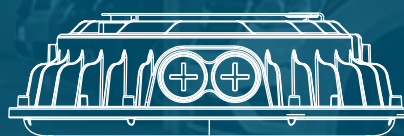

LED ROUND CANOPY LIGHT

OUC5

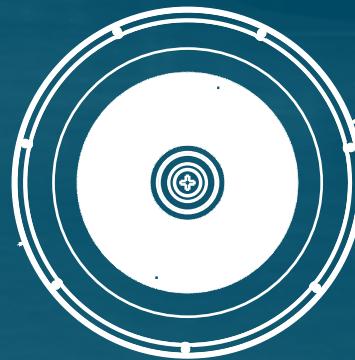

LED Round Canopy Light

The OUC5 LED Round Canopy offers high performance in an economical and practical design. The OUC5 achieves even light distribution using a prismatic, frosted lens that is UV- and fire-resistant while its die-cast aluminum housing has convenient knockouts for easy J-Box, surface mount, or pendant installations. The OUC5 is an efficient outdoor canopy lighting solution for exterior ceilings or for canopy, parking garages, carports, covered walkways, or other commercial spaces, and is equipped with an integrated heat sink and a dual application lens. The OUC5 offers selectable wattages (100W/80W/60W) and selectable CCT (3000K/4000K/5000K). Factory mounted photocell standard.

Dimensions

3.5 in
(89 mm)

10.7 in

FEATURES

Optical System

Specially designed lenses make the light distribution suitable for canopy and garages

Sensor Ready

Preinstalled 3.5mm sensor socket allows use of low-voltage lighting controls

Multiple Ways to Mount

Varied installation methods: J-Box (hinged mounting plate) / Ceiling/conduit (1/2" threaded openings on sides) / Pendant (3/4" provided by others)

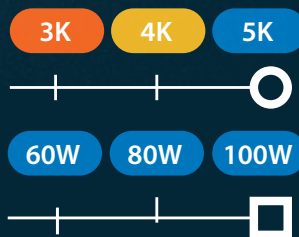

Factory-Mounted Photocell + Sensor Socket

Dusk-to-dawn operation out of the box, with a 3.5mm socket ready for low-voltage motion/daylight sensors.

Select the Perfect Light

The OUC5 Round LED Canopy features selectable wattage and color temperature options via an integrated dual-select switch.
