

Marvell PICe SATA eSATA Card

Installation Guide

This guide contains installation instructions for the following operating systems:

1. [Windows](#)

To install the driver:

Before you install the device, make sure that your operating system is current (for example, the most recent service pack is installed).

1. Right-click the zip folder that you downloaded, click **Extract All**, and complete the instructions.
2. In the list of extracted files, right-click the **Setup.exe** file and click **Run as Administrator**.

Note: If the **Run as Administrator** option is not available, you might be attempting to run the installer from within the zipped file. Extract the files using the instructions in step 2.

3. Complete the instructions to install the device drivers, and restart your computer when prompted to.

Your computer will automatically complete the driver installation and your device should be ready to use.
