

Rectangular Sticker

2.00" x 1.00"

Bleed Area: 2.16" x 1.16"

To make sure you don't get any unwanted white borders, extend the background/edges of your design to the bleed area.

Safe Area: 1.84" x 0.84"

To make sure all of the main features of your design don't get cut off, keep them inside the safe area.

We cut your sticker halfway between the bleed and safe area. However, the cut line can sometimes vary slightly from this position.
